Save the Date: Bauer's Long Night of Training on September 19, 2025

Schrobenhausen, Germany – “Which career path is right for me?” That’s the question students and their parents can explore at Bauer’s Long Night of Training. On Friday, September 19, 2025, the BAUER Training Center (BAUER-Strasse 2, Schrobenhausen) opens its doors at 5:30 p.m. for an evening full of insights and experiences at the region’s largest company offering vocational training.

The concept has been a proven success for years: In a relaxed atmosphere, visitors have the chance to talk directly with instructors and apprentices about the 17 different vocational training programs offered at Bauer in Schrobenhausen alone. At a variety of interactive stations – including a drilling rig simulator and a blacksmithing demo – students can roll up their sleeves, try things out, and discover which profession best matches their skills and interests.

At 6:15 p.m. and again at 8:30 p.m., Training Manager Gerhard Piske will share insights into the diverse career opportunities available at Bauer. A special highlight awaits guests at 8:00 p.m.: a live drilling rig demonstration at the Aresing plant. For those not arriving by car, a free shuttle service will be available at 7:45 p.m.

About Bauer

The BAUER Group is a leading provider of services, equipment and products dealing with ground and groundwater. The Group can rely on a worldwide network on all continents. The Group's operations are divided into three forward-looking segments: Geotechnical Solutions, Equipment and Resources. Bauer profits enormously from the collaboration of its three business segments, enabling the Group to position itself as an innovative, highly specialized provider of products and services for demanding projects in specialist foundation engineering and related markets. Bauer therefore offers suitable solutions to the world's greatest challenges, such as urbanization, the growing infrastructure needs, the environment, as well as water. The BAUER Group was founded in 1790 and is based in Schrobenhausen, Bavaria. In 2024, it employed about 11,000 people and achieved total Group revenues of EUR 2.2 billion worldwide.
